Machine Function Introduction

1. Product Overview

· Specially developed fully automatic toroidal winding machine for thin wire diameters and small magnetic cores, with tight winding, minimal magnetic leakage, accurate winding turns, and stable product quality.
· 64-clip winding disc structure, suitable for thin wire diameters, high efficiency for small magnetic cores, and stable winding.
· Suitable for thin wires, multi-wire parallel winding, differential mode, common mode and other uniform winding, with a wide variety of products.

2. Core Technical Parameters

Winding Mode	Winding disc clamping type
Copper Wire Diameter	0.08~0.2mm
Copper Wire Length	Single wire ≤1.5m, double wire ≤0.8m
Magnetic Core Size	Outer diameter 2mm~15mm; Inner diameter 0.8mm~12mm
Winding Speed	0.2~0.4s/turn (depends on wire diameter and number of winding turns)
Winding Type	Single wire, double wire, triple wire, quadruple wire, six-wire, common mode, differential mode, etc. (number of turns generally less than 60, subject to actual conditions)
Power Supply	AC 220V 50Hz
Equipment Dimensions	L1250mmW605mmH1450mm
Total Power	800W
Rated Power	200W
Weight	Approx. 150KG

FACTORY:

We-KIOXIA LIGHT RING EQUIPMENT GROUP CO.,LTD. has 28 years of experience in winding machine lines. Our KIOXIA series (including the KX3B-L model) is equipped with ISO9001:2015 and CE certifications, proprietary machine patents, and the qualification of a government-recognized "high-tech enterprise".
